DETAILED ACTION

Finality

1. The finality of the last office action is withdrawn in view of the following new grounds of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims **9-13** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims **9-13** are claiming "a system for mapping an original MAC address to a unique locally administered virtual MAC address." However, the claims do not give a structure for the system. According to the claims, the system comprises an "address mapping function."

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims **9-13 and 15-17** are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims **9-13 and 15-17** are directed to an "address mapping function." A "function" is considered an abstract idea. These claims do not fulfill the requirements under 35 U.S.C. 101 for an abstract idea because the claims do not require any physical transformation and the invention as claimed does not produce a useful, concrete, and tangible result.

Allowable Subject Matter

6. Claims **1-8 and 14** are allowed.
